Neon Chair

Excellent design quality meets superb ergonomics and special comfort - Neon represents the new generation of work chairs. No other production work chair has features that can compare. Thanks to its innovative 1+1 system, the upholstery can be changed with just one click. This means the Neon is flexible, sustainable and optically adaptable for the workplace.

Design
Manufacture
Create

People working in manufacturing workplaces may use a good deal of energy, or they may be doing delicate work; in either case they often make repetitive movements, and it is not always easy to find an ideal position in relation to the workpiece. So in order to provide active-dynamic sitting, and to avoid forced postures, a chair has to be perfectly adapted to the work environment and to people. Neon is the first workplace chair that genuinely fulfils this requirement, thereby protecting the health and productivity of employees.

Features

- Permanent contact backrest
- Changeable upholstery elements
- Available with footrest, glides and castors
